

# Sway Bar Bushing Liner

[VIRTUALLY ELIMINATES NOISE]

# Schlegel Sway Bar Bushing Liner

Virtually eliminates noise

Schlegel Sway Bar Bushing Liner Fabric Tubes when incorporated into your moulded sway bar bushings, virtually eliminate noisy sway bars and provide that noise free feature longer than any other method of internal lubrication available on the market today. The 100% filament pile woven into the fabric gives a clean, oil free surface that will perform for the life of the bushing. It requires no maintenance and substantiates the reliability and long life advertised by the automobile manufacturers who use Schlegel liners.
