

MAIOR DURABILIDADE

Recuperação após compressão e qualidade técnica

AMBIENTES INTERIORES MAIS SILENCIOSOS

Redução sonora de referência, comprovada por testes extensivos

POUPANÇA DE ENERGIA

Graças a uma condutividade térmica muito baixa

FIABILIDADE DO DESEMPENHO

Alongamento mínimo durante a instalação para uma contração mínima ao longo do tempo

MELHOR DESEMPENHO À COMPRESSÃO

Recuperação a longo prazo da deformação por compressão: 90% da forma original

RISCO MÍNIMO DE ENTRADA DE ÁGUA

Resistente à água por conceção, com inibidores integrados que criam uma barreira contra a humidade

DESLIZAMENTO SEM ESFORÇO

Revestimentos de baixa fricção para aplicações de correr

FABRICO RÁPIDO

Designs personalizados apoiam processos de produção específicos do cliente

LIMPEZA SEM COMPLICAÇÕES

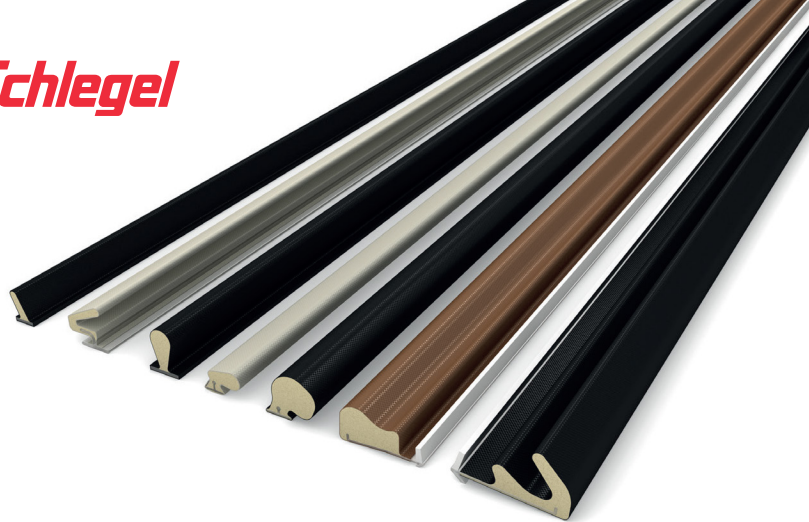

Não é afetado por muitos solventes e produtos de limpeza comuns

TRANQUILIDADE
